

The Teacher Recruitment Landscape in North Carolina

Dr. Thomas Tomberlin

Director, Educator Recruitment and Support

North Carolina Department of Public Instruction

State Focus on Teacher Recruitment and Diversity

- NC State Board of Education, STRIDE (BestNC), and DRIVE (Governor Cooper's Task Force) are all working toward strengthening the teacher pipeline and increasing the diversity of NC's teaching force.
- Data are essential for these efforts to craft policy recommendations that can achieve the desired outcomes.
- NCDPI is assisting with these efforts by developing a suite of state-wide human capital dashboards.

All Teachers in State (2018-19)

Choose a primary comparison:
License Route

- Race
- ☒ African-American
 - ☒ Am. Indian/Alaskan Native
 - ☒ Asian
 - ☒ Hispanic/Latino
 - ☒ Native Hawaiian/Pacific Islander
 - ☒ White

- Gender
- ☒ Female
 - ☒ Male

- Teacher Effectiveness
- ☒ Highly Effective
 - ☒ Effective
 - ☒ Needs Improvement

- License Type
- ☒ CPL
 - ☒ International Faculty
 - ☒ IPL
 - ☒ Lateral
 - ☒ Not Licensed
 - ☒ Residency

- License Route
- ☒ NC Teacher Prep
 - ☒ Alternative Entry
 - ☒ Residency
 - ☒ Out-of-State
 - ☐ Career-Tech License
 - ☐ International Faculty

- License Type
- ☒ CPL
 - ☒ IPL
 - ☒ Lateral
 - ☒ Residency

These bar charts show the percentage of the state's teachers holding different types of licenses. Use the first dropdown (top right) to choose the comparison you'd like to emphasize in the chart. Use the rest of the menus to filter the subgroup that feeds into your primary comparison. For example, if you were interested in comparing by Gender, you'd select Gender for the primary comparison. And then if you wanted to just look at Gender comparisons for African-American teachers, you'd use the Race/Ethnicity menu to filter the graph.

License Route and Diversity

Distribution of Preparation Routes for Newly Hired K-12 Public School Teachers (2015 to 2019)

First Year Teachers (2018-19 School Year)

Race/Ethnicity	Total	Pct Alt Cert	Pct NC Prep	Pct Out of State
All	5,510	38.1%	32.9%	29.0%
White	4,158	29.4%	37.7%	32.8%
African-American	1,078	70.4%	15.4%	14.1%
Hispanic/LatinX	167	38.9%	28.1%	32.9%

EPP Enrollment and Completion

Enrollment and Completion

Equitable Access

Equitable Access by School

Use the two dropdowns on the right -- "Teacher Effectiveness Selector" and "School Characteristics Selector" to choose the two measures you'd like to compare. Each dot that displays represents a school. The line shows the overall relationship between the two measures across all the schools. If you'd like to further disaggregate by the type of school, choose the school category you are interested in using the "Highlight Dots by Category" menu on right. Then to highlight schools with a certain value in that category, type in the value "And this value of the category." Schools that meet that criteria will highlight, and the trend line will update accordingly.

Conclusion

- Issues related to teacher preparation, licensure, and initial placement in the field are complex and interrelated.
- It is clear from the data, that African Americans do not have the same opportunities for preparation and successful employment placement as White candidates.
- As Hispanic/LatinX student populations increase, the State needs to find ways to attract Hispanic/LatinX students to the profession.
- Quantitative analysis can only tell us where the problems are; it cannot tell us why they are happening. There is no substitute for thorough qualitative research to help us understand the why behind the numbers.
