Instructions for Comparing Schools

- The school level tool allows for multiple types of analysis:
 - Comparing schools within a single district.
 - Comparing schools from multiple districts.
- See the slides below for examples of each.

Example 1: Comparing Schools within a Single District

- **STEP 1:** Identify a district.
 - After you identify a district, there will be a list of all schools in the *state* in the Box labeled “STEP 2.”
 - A list of schools will populate in the *Select School(s)* section below “STEP 2.”
- You can then click the check boxes to select and unselect schools based on what you'd like to display.
- To reset and include all schools, re-check the “All” box in **STEP 2**.
